Subject: Los Alamos preliminary MS4

While reviewing the Amigos Bravos Petition for determination of a Los Alamos MS4 I saw numerous references to *"Addendum D to a Region VI document titled "FACT SHEET, August 29, 2003, Proposed Issuance of National Pollutant Discharge Elimination System (NPDES) Storm Water General Permit for Small Municipal Separate Storm Sewer Systems (MS4s)"*. I was unable to find this document on the Amigos Bravos website, the EPA website, or through a web search. Do you have an electronic copy of this document? If so, would you please email it to me.

Thank you,
